### Of Defective Vision

Many persons have the idea that defective vision manifests itself only in a failure or inability to see clearly, but itching, burning, smarting of the lids, dull pains in the eyes or head, even the back of the head, all come from irregularities in the optical construction of the eyes and may be entirely relieved by correctly fitted glasses.

DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance call him at once.

### PRESIDENT SPENCER-PASSES.

Stops to Inspect The New Depot—His Visit South.

President Samuel Spencer, of the Southern Railway Company, passed through Greensboro yesterday afternoon, on a special train enroute south. Accompanying him were several prominent capitalists and stockholders of the Southern. The train stopped here only a few minutes to allow President Spencer and party to inspect the new depot, and proceeded on the southern trip.

It is understood that Mr. Spencer's visit south is in connection with the extension of the Southern from Columbia to Savannah. The Southern will build the extension on account of the recent purchase, by the Seaboard Air Line, of the F. C. & P. road, the Southern having, for the past six years used this road to complete its Florida connection. Chief Engineer Wells, of the Southern, is now in Columbia organizing a surveying force to take the field at once. The line will be completed in time for next winter's business.

Manila, April 1—The American troops are partaking of some much needed rest at Malolos today. Gen. McArthur has established headquarters in the former Filipino hall of congress. The troops are making themselves as comfortable as possible. The army gunboats will prepare water base on the river when Calumpit is attacked. An armored train will be in readiness to be used further north when the advance is resumed. The absence of extensive camp debris on the ground corroborates the Americans' indicates that the enemy's force has been greatly exaggerated.

ARMY IN EXCELLENT SPIRITS.

Washington, April 1—The following dispatch has been received from Gen. Otis today:

"Quiet prevails. Have directed troops from Malolos and on railroad sent out upon reconnoitering duty. Find insurgents in only small portions in surrounding country who retire at our approach. A few of our troops are moving to new positions, preparing for continued active campaign. The army is in excellent spirits."

"Otis."

OTIS' DISPATCH ENCOURAGING.

Washington, April 1—The war department regards Otis' dispatch as very strongly encouraging. It looks as if Aguinaldo's followers are discouraged and demoralized." It seems that the rebel chief is unable, even if so disposed, to take a new position

It may be that he doesn't wish to re-unite his forces just at present. The war department officials are of the opinion that Aguinaldo has been very severely punished. It is very likely his shrewd intent to keep his army scattered in the northern region until the men can rest for another encounter with the Americans.

PRESIDENT LOUBET'S ESCAPE.

Mr. Tourett, a Rich Merchant, Killed By a Madman.

By Cable to THE TELEGRAM.

Paris, April 1—Lying in wait to assassinate President Loubet, a madman named Ozonis shot dead the president's double, M. Tourett, a rich merchant, in the Bois de Boulogne today. Touret's resemblance to the president was so marked that they were often mistaken for each other.

Another Vessel Goes Down.

Dover, April 1—The German steamship "Pontos" sank in the English channel today after a collision with the British steamer "Star" near North Zealand. The passengers and crew were saved.

Southampton, April 1—One hundred and two of the 140 passengers who were on the "Stella" have been accounted for. It is believed that nearly all of the crew of 42 perished.

Dr. and Mr. G. W. Whitsett entertained a number of young people at their home on Church street last evening in honor of the birthdays of Misses Hill Whitsett, Jennie Brent and Mary Cator, all of which came in March.

Twenty couples were present and the evening was most pleasantly spent by all. Superb refreshments were served and the guests were treated to good music by some of the young ladies.

### AS TO VACCINATION.

Now, that the smallpox scare in Greensboro, for scare it has been and nothing more, is over, a few reflections may not be out of place: There is great complaint from many quarters because the people were forced to be vaccinated, when there seems to have been no demand for it in the absence of an epidemic. Great loss of time and damage to business has resulted, and the people are not in a good humor over it. But suppose no steps had been taken and it should have developed into an epidemic, there would have been loud denunciation of the authorities for not taking the matter in hand. No man is infallible and it is not always possible for man to do what will please man. We have privately had the opinion that compulsory vaccination was not at all necessary. It was eminently right to quarantine all suspects; but we believe the good sense of the people of Greensboro may always be depended upon to do what is necessary to protect the health of the city and at the same time promote her business interests.

We therefore maintain that had the health officer simply issued an address to the people of this city emphasizing the importance of vaccination in order to prevent an epidemic the results would have been as great. The same doctrine we have preached in other things applies with equal force here: You cannot force people to do things they don't want to unless you convince them that the public good demands it. And when you do the latter the first will not be necessary.

But, our good sense should prevail. The sore arms, most of them, are getting better now, and everybody should get down to bus'ness and work with a will to regain the lost time. The adherents believed they were right, and if they were wrong it is because they are only human, like other people. Let everybody stop agitating and complaining about the damage to business and study what must be done for Greensboro and go to work with a determination to do it.

The late democratic legislature will never cease to be praised by all people of all political parties, who have the good of the state at heart, for its appropriation of \$100,000 to the public schools of North Carolina. Education is a costly gift, but there is nothing under the sun upon which money may be more advantageously expended than the minds of the coming generation.

### AN INJUSTICE.

Collector Duncan tells the correspondent of the Newbern Journal that the distillery of liquor is largely on the increase in his (the eastern) district, which he attributes "to the tobacco growers from the mountain section going to the eastern towns to teach the farmers how to raise tobacco." For course according to the collector, blockading is on the increase also.—Raleigh Morning Post.

It is very unfair to attribute this increase in lawlessness in the east to an influx of western blockaders. It's a sorry excuse. While no one denies that some of the Surry or Wilkes people hate to see the luscious apple rotting on the ground—and while a certain specimen of Stokes citizenship dislikes for his hogs to grow too fat while the crib is overflowing with surplus corn, yet it is also known that there has always existed in the eastern brother of the same category as those mentioned above a propensity to linger in the lonely hollow after nightfall, partly, of course, to watch the sad moon gleaming on high, and, incidentally, for other reasons.

How about the curfew ordinance in Greensboro? That question has been asked a number of times, and the surprising reply has gone forth that no difference is seen from the fact that no arrests have been made! Well,

that's a good one. There is a statute law in North Carolina against stealing but no arrests can be made unless somebody steals something. A law can be obeyed, and have the effect for which it was intended, without requiring the services of an officer to yank somebody before the bar of justice. In fact all laws are most effective when willingly obeyed. Therefore, we take it, that up to date the curfew law in Greensboro is a decided success, because the youth of the city do not idly roam the streets at night. First let the people know the benefit to be derived from a law and no arrests are likely to be necessary.

The Hight Point Enterprise discovers a striking resemblance between Dr. Creasy, of Winston, and President McKinley.

### GOVERNMENT FOR PORTO RICO.

#### Special Commissioner Carroll Will Recommend a Territorial Form.

New York, March 31—Dr. H. K. Carroll, who has spent nearly three months in Porto Rico as special commissioner for President McKinley to find out the best method of applying civil government to the island, has just arrived.

"I shall have no hesitation," Dr. Carroll said, "in recommending a territorial form of government for Porto Rico. The people are too bright, too ambitious and too anxious to become Americans to put under a colonial form of government. They deserve something better. Just what form of temporal government I shall recommend I am not yet fully prepared to say; but at any rate it will provide for exercise by the people of the right to make local laws and elect officers, combined with a certain balancing power on the part of the government to keep them from going too far in the reaction from Spanish rule.

"In all my travels through the island I did not find the slightest disposition to object to American rule. On the other hand, I was told repeatedly that if it would do any good, public protests would be sent to Washington against giving the island independence."

#### A Small Pox Remedy.

A correspondent of the Stockton (Cal.) Herald writes as follows: "I herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the small pox, though the pittings are filling. When Jenner discovered cow pox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—published this recipe as a panacea for small pox, it passed unnoticed. It is unfailing as fate, and conquer in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. Here is a recipe as I have used it, and cured my children of scarlet fever; here it is as I have it to cure the small pox; when learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of sugar; mix with two tablespoonfuls of water. When thoroughly mixed add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For children smaller doses, according to age.

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by C. E. Holton.

Rich beds of soft coal have been discovered at Chignik Bay, B. C.

Telegrapher William Dunn was killed in a collision of trains at Richmond, Ind.

#### A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on me, causing a set in and finally terminated in death. The physicians gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband wanted to get Dr. King's New Discovery for Consumption. I gave it a trial, took in all eight bottles. It has cured me and thank God I am saved and now a healthy woman. Trial bottles free at C. E. Holton's drug store. Regular size 50¢ and \$1. Guaranteed or price refunded.
